TOTAL IMPLEMENTATION SERVICES POWERED BY DIEBOLD NIXDORF ALLCONNECTSM SERVICES

A key element of success in today's banking industry is the ability to manage change—anticipating market demands, quickly harmonizing diverse IT landscapes, reducing industry complexities, increasing value, and enhancing your financial institution's image while simultaneously making your costs more efficient. Total Implementation Services, powered by Diebold Nixdorf AllConnect Services, offers reliable and scalable implementation solutions based on globally standardized processes and tools, a Single Point of Contact (SPOC) approach, and reliable local expertise.

END-TO-END SOLUTIONS

- Redesign, restructure and implement solutions
- Simplify and streamline transformation
- Scalable solutions with project management
- Flexible offerings to best fit your needs

SINGLE POINT OF CONTACT (SPOC)

- Seamless management of dependencies
- Reduce complexity for transformations
- Single partner for your day-to-day challenges
- We manage all third parties on your behalf

TRANSPARENT WORKFLOW

- Customized management dashboard available 24/7
- Benefit from transparent governance
- KPI commitments designed to suit you

Rely on Diebold Nixdorf as your rollout partner for an effective and timely deployment. Diebold Nixdorf acts as an integrated service provider through the entire implementation process. Total Implementation Services, powered by Diebold Nixdorf AllConnect Services, provides you with a single point of contact from the initial planning up to the replacement and refurbishment of your old systems.

Total Implementation Services is based on standardized processes and project management methodology and combines local expertise with global knowledge to ensure a seamless implementation and minimized business interruptions. Thanks to our global delivery capabilities (supported by local experts and certified local partners), we are able to carry out numerous deployments on time and in budget, with the highest level of availability. Our scalable, modular services also support multivendor environments. Total Implementation Services also include innovative concepts to modernize your branches and optimize your branch network strategy.

BASIC INSTALLATION SOLUTIONS

Basic Installation Solutions focus on the installation of new systems, hardware and software upgrades and removal of existing systems. Whether you want to implement, update or remove your hardware, Basic Installation Solutions offer seamless IT integration and support, leveraging efficient processes and minimizing business interruptions. Our experts coordinate operations with you, relying on your unique strategy and requirements. Basic Installation Services can be provided as ad-hoc services or included in a roll-out. Our services will follow your processes and requirements in the most flexible way.

CUSTOMIZED DEPLOYMENT SOLUTIONS

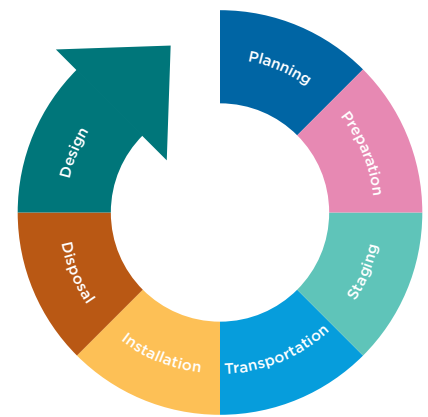

Diebold Nixdorf provides ready-to-use rollout solutions of any multivendor IT, devices and software. Our integrated project management office manages large-scale deployments of heterogeneous manufacturer IT-systems, components and software, all in a flexible manner that adapts to your processes, with respect to your deadlines with relevant planning. Customized Deployment Solutions is an end-to-end approach providing support from the initial design through the final disposal of your old systems. We ensure a seamless integration process, no matter the complexity, with change and risk management focused on required deadlines and minimal business interruptions. After the deployment, a smooth handover to maintenance services and customized training to your staff may be provided when necessary.

BRANCH DESIGN & CONSTRUCTION

Branch Design & Construction develops an innovative concept tailored specifically to your branch needs. Your branch will yield a higher brand attractiveness to reach consumers on an emotional level. The whole modernization process will be fast paced and cost-optimized. Supported by our experts, Branch Design & Construction includes concepting innovative branch designs, and can go all the way to complete implementation, including the architectural elements, furniture if required and IT solutions implementation. We take on all the planning services and coordinate the implementation with the necessary partners. Additionally, Branch Design & Construction coordinates the implementation of security solutions.

PAVILION SOLUTIONS

Pavilion Solutions provides 'ready-to-use' installation of ATM- and IT-equipped pavilions for banking networks. Pavilions are provided as turnkey solutions that include architectural design, implementation of the required IT infrastructure, construction work and the coordination of all involved parties. Pavilion Solutions offer the highest level of flexibility and creativity, and allow you to quickly adapt your network to changing consumer needs and frequency in certain locations. Our pavilion solutions are flexible in every respect, from design to construction to the location. They can include any self-service devices in a secure environment, and the design can be customised or you can choose from our standard design.

WHY DIEBOLD NIXDORF?

Diebold Nixdorf AllConnectSM Services offers transformative commerce services that provide tailored, end-to-end solutions with a customer-first view. We help banks, credit unions and retailers accelerate their performance on a global scale. Using the foundational strength of our top-rated, passionate and technically perfect support workforce, we consistently deliver ultra-secure transactions and services with upwards of 99% uptime.
